

Ludra (Gravel)

Ludra is a Gravel bike made for those looking for speed, precision and pure adrenaline off-road. With a lightweight frame, responsive geometry and optimised for sprints, this bike isn't just ready for gravel racing - it dominates it. Every component is selected for maximum performance, from the race-optimised drivetrain to the vibration-damping fork that gives you full control, comfort and perfect grip for every corner, climb and descent.

Feel the freedom of untouched trails and the power of pure speed beneath you. For those who don't just want to cross the finish line, but enjoy the journey - this is the bike that will get you there.
